

Water is (y)our element

Since 98 years, we have been working for the most valuable resource of the world: WATER. We design, build and operate water and wastewater treatment plants. Especially, we are proud about our major projects in countries such as Egypt, Tunisia, Turkey, Romania, Saudi Arabia or Namibia.

Our sustainable success is based on the competence of our more than 1.500 employees in 25 countries around the world.

Share with us the fascination of international project business and join us in implementing creative and sustainable solutions as:

Project Manager

The Project Manager is part of the execution team and can handle at the same time one or more projects simultaneously assuring the management of the project.

Responsibilities:

- Daily management of the project (logistic and design concept);
