

**Location:
Bucharest** **Senior Maintenance Mechanical Engineer**
for water and wastewater treatment projects

We welcome all those who want to make a difference with their work. In this respect, neither age, gender nor origin count, but talent, the will to perform and enjoyment of the work.

Responsibilities and duties

- Preparation of maintenance plan;
- Supporting mechanical equipment monitoring through daily preventive and predictive maintenance activities (e.g. visual inspection of equipment, vibration measurement).
- Supporting replacement of spare parts of dynamic equipment as per preventative maintenance schedule (e.g. replacement of mechanical sealing of pumps, alignment of pump with motor, replacement of impeller of blowers, etc.).
- Support repair works on dynamic equipment together with the maintenance team.
- Suggest modifications to work procedures and equipment use to increase the efficiency of work.
- Coordination of the maintenance team for preventive/reactive maintenance activities and commissioning tasks.

Your qualifications

- Technical university degree; e.g. for Hydromechanics
- Excellent command of Romanian and English;
- Minimum of 8 years working experience in a similar position, ideally gained in an international environment;
- Competent computer literacy (MS-Office, SAMA);
- Ability to read engineering documents (P&ID, PFD schemes, general layouts, civil guide drawings, overview diagrams, piping supports, hook ups, etc.)
- Ability to take initiative and work independently
- Team spirit and high communication skills.

We offer:

- A multinational high-tech company which offers engineers an exciting and extremely diversified working environment
- A meaningful job where talented employees in all professional fields contribute to environmental protection
- Development and further training opportunities to shape and achieve your career goals
- Team spirit and a passion for water technologies
- A sustainable, down-to-earth and well-established company with 98 years of experience
- Competitive and performance-based remuneration
